

NEW FEHR ECLIPSE ROLLERS

Double Sealed High Precision 608-2RS Bearing - Rubber Seals on both sides and pre-lubricated with grease.

Steel 4" Stem Encapsulated in glass reinforced nylon for amazing corrosion protection and noise reduction.

**3x the corrosion protection to
traditional Door Rollers**

Quieter than Standard Nylon Rollers

For over 40 years Fehr has provided high quality door rollers. Our side by side cycle life testing demonstrates that Fehr rollers complete 2-3 times as many cycles as the competition and show 1/2 the wear.
